From The Editor

We are in the midst of historic times due to the Coronavirus. I'm sure none of us expected the global health and economic crisis we are witnessing now. We must all do our part to stop this invisible enemy of the world. I sincerely hope everyone stays healthy and gets through this mess as well as possible.

Stay safe!

Steve

The NCIT is getting lonely.....

Greetings,

I had originally closed all club rides through April 3rd. Sadly this virus is rapidly spreading. In accordance with Governor DeWine's order to practice social distancing, I am making the decision to cancel all club rides indefinitely. As soon as we can safely resume rides I will consult with the board and then notify our club members.

These are alarming times for everyone. Please continue to practice social distancing, eating healthy, getting out in the fresh air, and Hand Washing.

Thank You,

Sue Wells

President, Silver Wheels Cycling Club

Seeing our classic spring events cancelled is sad for us all. Hopefully things will improve soon and we can get back to group riding. Since I have no club events to report on, I have dug through old issues of Rollin' and my own photographs to create something for us to read. Plus some needed silliness. Remember the good times and be assured they will return! **Steve**

Remember the PEP ride? Here is a group shot from 2010

Here I sit, broken hearted

Wanted a group ride, but couldn't get started

Everything's cancelled, have to stay home now

Trying to avoid the virus, the best we know how

Spring is here, along with better weather

But to stay safe, we can't be together

**But to stay safe, we can't be together
We can only hope this will all end soon
And we can ride with the club this coming June
So keep your bike ready, maintained and clean
Things will get better, you'll see what I mean
And listen to reason and take it to heart
Wash your hands and stay six feet apart
When we all work together, this too will pass
As we help each other kick some virus --- (butt)**

Here's another group of riders from 2010. I believe it was one of Joel's rides

On good weather days, many club members can be seen out riding by themselves or in small groups while practicing social distancing. This is a great way to get out and exercise. Unfortunately the miles don't count but we can at least stay in shape for when group riding resumes. Remember to be extra careful out there. This is not the time to be needing to go to a hospital.

A Healthy Club by Joe Etzler, Past President

I'm not sure what constitutes a healthy club besides healthy members. I do know that we have:

- Eager and energetic riders of all types and sizes**
- Friendly and caring members**
- Excellent local routes on which to ride.**
- Some interesting trips and theme rides planned for this year**
- A great number of dedicated officers and volunteers**
- Enough money in the pot for our needs**
- Off seasons diversions in the form of skiing, hiking, spinning and kayaking**
- Short meetings – sometimes**
- Outstanding special events and banquet**
- A good selection of local bike shops**
- A popular invitational ride**

The Healthy Club was printed in the May 2011 issue of Rollin'
